

Documentation Bastion

Installation du bastion

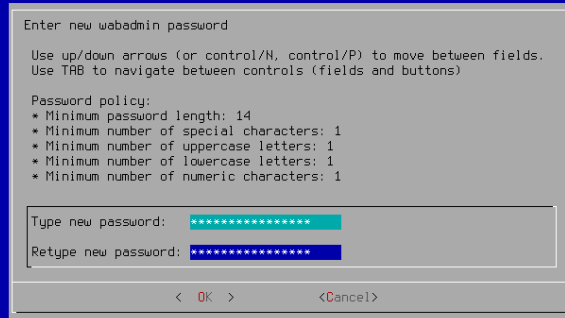

- Saisir le mot de passe par défaut **SecureWabAdmin** du compte **wabadmin**

- définir un nouveau mot de passe avec les caractéristiques suivantes :
 - longueur minimale : 14
 - caractère spécial : 1 minimum
 - lettre majuscule : 1 minimum
 - lettre minuscule : 1 minimum
 - caractère numérique : 1 minimum

* => P@\$\$w0rd2025Secure

Enter new wabadmin password

Use up/down arrows (or control/N, control/P) to move between fields.
Use TAB to navigate between controls (fields and buttons)

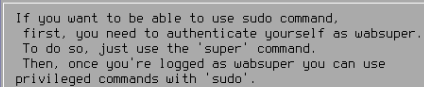

Password policy:

- * Minimum password length: 14
- * Minimum number of special characters: 1
- * Minimum number of uppercase letters: 1
- * Minimum number of lowercase letters: 1
- * Minimum number of numeric characters: 1

Type new password: [redacted]

Retype new password: [redacted]

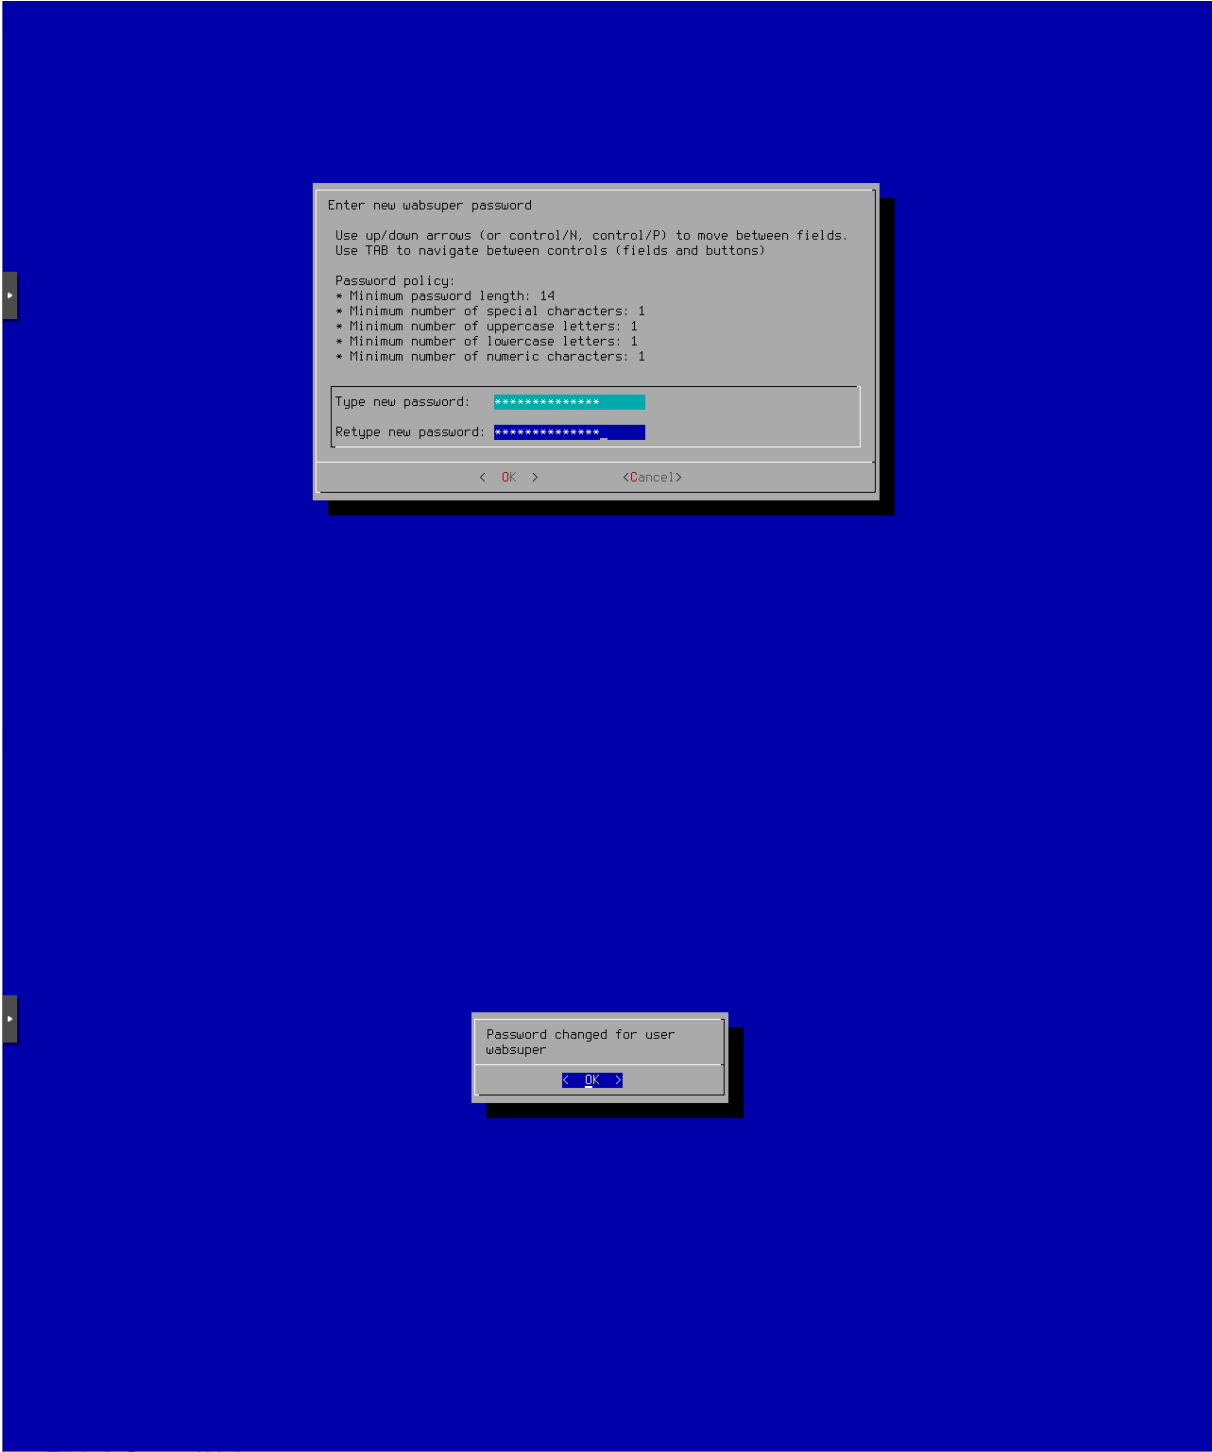

< OK > <Cancel>

If you want to be able to use sudo command,
first, you need to authenticate yourself as wabsuper.
To do so, just use the 'super' command.
Then, once you're logged as wabsuper you can use
privileged commands with 'sudo'.

< OK >

- Définir le mot de passe du compte **wabsuper** => P@\$\$w0rd2025Secure
